-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Rejections Maintained

1. Claims 1-3 and 5-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Blackburn (5190533) for reasons of record made in the last Office Action of April 28, 2006.

Response to Arguments

2. Applicant's arguments filed 7/14/2006 have been fully considered but they are not persuasive.

Applicant argues that Blackburn fails to teach "...a strip of pressure sensitive adhesive transfer tape...said base side of said pressure sensitive adhesive **adhered** to said interior side of said strip of fabric **substantially along said first lengthwise edge**..." and that Blackburn's 5% is not substantially. These are not found to be convincing because the adhesive tape of Blackburn is **adhered substantially along said first lengthwise edge as claimed**. It is unclear if applicant is attempting to define that **substantially by** being along the entire length.

Contrary to applicant's observation, the tape of Blackburn also extends lengthwise.

With respect to applicant's position that Blackburn does not teach a tubular configuration, applicant should note that "to form a tubular configuration" is an intended use of the claimed product structure and, as mentioned in the last Office Action, intended use phrases have not been given any patentable weight because said phrase are not found to be of positive limitation.

Art Unit: 1772

Regarding applicant's argument that Blackburn does not contain an enabling disclosure because Blackburn's diaper is not related art to a cord cover. This is not deemed to be persuasive because the structure of Blackburn anticipates the structure as claimed.

Applicant is directed to the last Office Action, wherein it has been explained that the preamble phrase "A cord cover" is denied the effect of a limitation because the claim is directed to a structure.

Thus, in the absence of any evidence to the contrary, it remains the examiner's position that the claimed invention is anticipated over the prior art of record discussed hereinabove.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

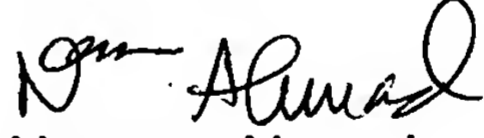

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
